

Trade Compliance Verifications – January 2013

The CBSA manages compliance with the Tariff Classification, Tariff Treatment, Valuation, and Origin programs using the following two post-release verification processes:

1. Random Verifications
2. Targeted Priorities

Random Verifications

Random verifications are designed to measure compliance rates and revenue loss and the results may be used for many purposes, including:

- Risk assessment;
- Establishing client service activities;
- Revenue assessment; and
- Promoting voluntary compliance.

Targeted Priorities

Targeted priorities are determined through a risk-based, evergreen process, meaning that new targets are added throughout the fiscal year. Targeted priorities may also be carried over from previous years. The current targeted priorities are:

Tariff Classification		HS Number(s)
1.	Pet Toys	9503.00.90
2.	Steel T-Posts	7308.40.00.90
